Songs

Fill out the following for each song.

Song # - Song Name

Input file name:

Output file name:

Song Details

Instrument:

Song key:

Song genre:

1. Overall, how satisfied are you with the generated accompaniment?
2. How satisfied are you with the harmonic elements of the generated accompaniment (i.e. which chords were chosen)?
3. How satisfied are you with the rhythmic elements of the generated accompaniment (i.e. when the chord changes occurred)?
4. Can you count the number of chords you felt were misplaced or wrong?
 - a. If there are too many wrong chords to count, can you count the number of chords you felt were correct?
5. If this is a melody to a song you are familiar with, how does the generated accompaniment compare to the original song?
 - a. Is the generated accompaniment better or worse than the original?
6. Do you have any other comments about this output?
