Song #	Song Name	Instrument	Key	Genre	Overall	Harmonic	Rhythmic	Correct Chord Count	Better/worse than original accompaniment to song	Additional comments
1	Giant Steps	flute	E flat Major	jazz	5	1	5	4	worse	The accompaniment of this major tune seems to maintain a minor quality throughout. The changes mostly matches up with the movement of the melody (rhythmic).
2	Giant Steps	flute 2	E flat Major	jazz	1	1	1	3	worse	The result of the first flute take was much better. The harmonic progression as a whole lacked coherence. The melody rarely lined up with the chords in a logical way (rhythm).
3	Giant Steps	vox	E flat Major	jazz	1	1	1	2	worse	Both the rhythmic and harmonic Both the rhythmic and harmonic feel of the original tune are lost in the AI accompaniment. Not enough movement (rhythmic)
4	500 Miles	alto saxophone	C minor	jazz	5	1	5	2	worse	The Al accompaniment has a strong major feel overall while the original tune is minor
5	500 Miles	soprano saxophone	C minor	jazz	5	1	5	4	worse	The soprano take was more successful than the alto take
6	500 Miles	flute	C minor	jazz	1	1	1	2	worse	Al accompaniment gave a very major feel to a minor tune
7	Solar	alto saxophone	C minor	jazz	5	5	1	4	worse	Lots of seemingly unnecessary chord movement for what is a relatively simple tune in reality
8	Solar	soprano saxophone	C minor	jazz	5	5	1	5	worse	The result of both the soprano and alto takes seemed to be about the same
